Dear Friends:

We've had the pleasure of using Scott Flynn's services for over 20 years. Not only does he run a great business, he's a great person whom you look forward to seeing again when that next project comes around.

Through the years we've recommended Scott over and over again to our friends in the music business because we know how reliable & consistently excellent his work is. We can confidently do so because we know that they'll receive a great product back into their hands on time and with the highest quality.

We look forward to working with him again soon!

Sincerely,

Craig & Mary Durst
