

JACK W. HAYFORD
FOUNDER AND CHANCELLOR

The Following Is an Endorsement from Dr. Jack Hayford

I would like you to know how grateful I am to sound Advice Recording for the restoration and archiving of my sermons and teaching series that have been recorded for me over the last 30 years.

Without their expertise in creating the digital CD's and DVD's from my past audio and video recordings, my teachings might have been lost forever. I now feel confident that these messages will be readily available for anyone to access and learn from for many years to come.

I have also been delighted with the professional care that Sound Advice has provided in their CD and DVD duplication and packaging services.

If you are looking for these types of services, I can highly recommend Sound advice to fulfill your needs. You too can have comfort in knowing that your teachings will not be lost, but will continue to be beneficial for generations to come.

Dr. Jack W. Hayford, Chancellor
The King's College and Seminary
