To Whom It May Concern,

Jack Hayford Ministries is pleased to recommend Scott Flynn and Sound Advice for their quality, integrity, and reliable performance. Over the years, their superior editing and production of literally thousands of our media resources marks Sound Advice as one of our most trusted vendors, and yet Scott's personal attention deepens the relationship even more than that.

Due to the nature of our ministry, we often aim to produce finished products with very little turn-around time; Scott has always been responsive to our needs, frequently on short notice, and yet with sensitivity to our budget. Scott always goes the extra mile to meet our goals.

We're extremely grateful for Sound Advice's high standards, fair prices, and outstanding service.

Sincerely,

Courtney Hall  
Executive Director
